HICKS FOR FEBRUARY.

The first period of the month, a reactionary one, will be in progress as the month comes in and on and touching the 1st and 2d the weather will be come much warmer and a wave of cloudiness will pass over the country. These dis-turbances will not be severe in character but will be followed by much colder

weather. A regular storm period will be central on the 6-b, extending from the 5th to 9th. About the 6th raiss will set in in the east and south and snow will follow along the northern and western sides of the storm areas, resulting in rain storms succeeded by colder weather and snow storm progressing across the country from the 6th to the 9th. The crisis of this period will come about the 9th and will be characterized by very cold northerly winds, amounting almost to a blizzard, causing very cold, disagreeable weather from about he 9th to the 11th.

A reactionary storm period will be central on the 12th and 13th. At this time look for a great change to warmer weather, with sudden fall of the barometer fellowed by general severe atmos-pheric disturbances with thunder and rain to the southward and snow in the northern parts. A sudden, sharp cold wave will follow from the 13th to the 6th and from about this period to the of the month.

The regular storm period extending from the 16th to the 20th will be central on the 17th. It will be characterized by a marked rise in temperature and by a marked rise in temperature and storms of a decidedly tropical nature. During its first stages heavy rains with lightning and thunder will visit most sections in the south and central states, but sudden and violent changes to sleet and snow with bizardous conditions from the northwest will develop in the latter stages of this period. Look for the crisis about the 17 or 19th, followed closely and of several succeeding days by a general and severe cold wave.

A reactionary storm re-iod will extend from the 22d to the 25th and this period

promises to be the most severe of month. About the 21st there will be a change to warmer weather in the western parts. the pain is due. Price 50 cents | The temperature will continue to rise rapidly as the warm wave advances east-ward and the barometer will fall proportionately. By the 23rd high temperature for the season will have spread astward to for the season will have spread eastward to the central valleys, with a low barometer, and about the 23d to 25th violent and general storms of rain, wind and thunder will visit many sctions as the storm centre moves across the country. While the front or eastern and southern sides of these storm areas are causing sides of the e storm areas are causing tropical storms with rain, thunder an gaies, with possibly tornadoes, sweeping blizzards of snow and sleet will be rushing castward on the western and northern sides of the same storm areas. Storms varying from tropical and tornadic to boreal and blizzardous are apt people died from pneumonia in Chicago to be in progress at the same time in different parts of this country during this period and from this time until a day or two before the end of the month severe winter storms may be antici-

The month will end with a rising temperature in the west about the 27th and 28th, marking the beginning of a regu-lar storm period which will be central on March 1st.

Policeman and Highwayman.

James S. Reynolds, a former member of the Baltimore police force, charged with burglary and a fugitive from justice,
is now charged with a career of highway
sobborn is Baltimore Verlander man
and W. F. Creighton & Co. with burglary and a fugitive from justice, robbery in Baltimore. Yesterday morn-ing it developed that Reynolds kept an old suit of clothes somewhere on his beat, and at intervals while on duty at night would doff his police uniform and don the the old clothes, and then deliberately hold up belated pedestrians who might be traversing his post and relieve them of their valuables. One case of this nature was traced to Reynolds Wednesday, when Patrick Lyons, of Brunswick, Md., a locomotive engineer, identified a peari-handled knife taken from Reynolds when he was arrested on a charge of burglary. On December 25 last he reported at the Southwestern station that he had been held up and sophed of his gold method up and sophed of his gold method at the southwestern and the southwestern and the southwestern are southwestern. robbed of his gold watch and a plated chain with a locket and pearl-handled knife. Mr. Lyons said that he had been out Christmas Eve, and that while on his way ho ne rather late he was con-fronted by two men at Pratt and Light streets, who asked him the time. When he pulled out his gold watch, he said, the two men knocked him senseless, and upon his recovery he found he had been robbed. Reynolds' connection with the Lyons hold-up was established through the finding among some of his effects of a pawn ticket for a watch which had been pledged by him for \$10.
